

ZAFIRA LIFE & VIVARO

4x4 TRANSMISSION SYSTEM

OPEL CERTIFIED CONVERSION

OPEL ZAFIRA LIFE AND VIVARO 4x4 BY DANGEL.

The Opel Zafira Life and Vivaro with 4x4 transformation by Dangel is the best way to combine comfort, design and 4x4 traction.

The 4x4 Dangel transmission offers:

- Driveability: 4x4 drive line with viscous coupling and electronic traction control
- Efficiency ECO 2WD mode (selectable 4x4/4x2 modes)
- Robustness: protection plates under engine/gearbox
- Offroad capability: raise in suspension

The 4x4 Dangel system, always the right choice: Dangel 4x4 system can adapt to your needs, roads and weather conditions, thanks to its mode selector (ECO 2WD or AUTO 4WD):

ECO 2WD mode: the 4x4 drive line is disengaged, thanks to a jaw clutch in the front transfer case. The vehicle works in front-wheel drive, as standard 2WD version. This allows to save fuel and tyres wear, when 4x4 is not necessary.

AUTO 4WD mode: in conditions of normal surface grip, the vehicle works in front-wheel drive, like the standard 2WD version. If the front axle loses traction, the viscous coupling unit transfers a part of the available torque to the rear axle. This takes place automatically, without any driver's intervention, smoothly and only when necessary. The vehicle returns to 2WD as soon as the front axle has sufficient traction again.

4x4 by Dangel key advantages:

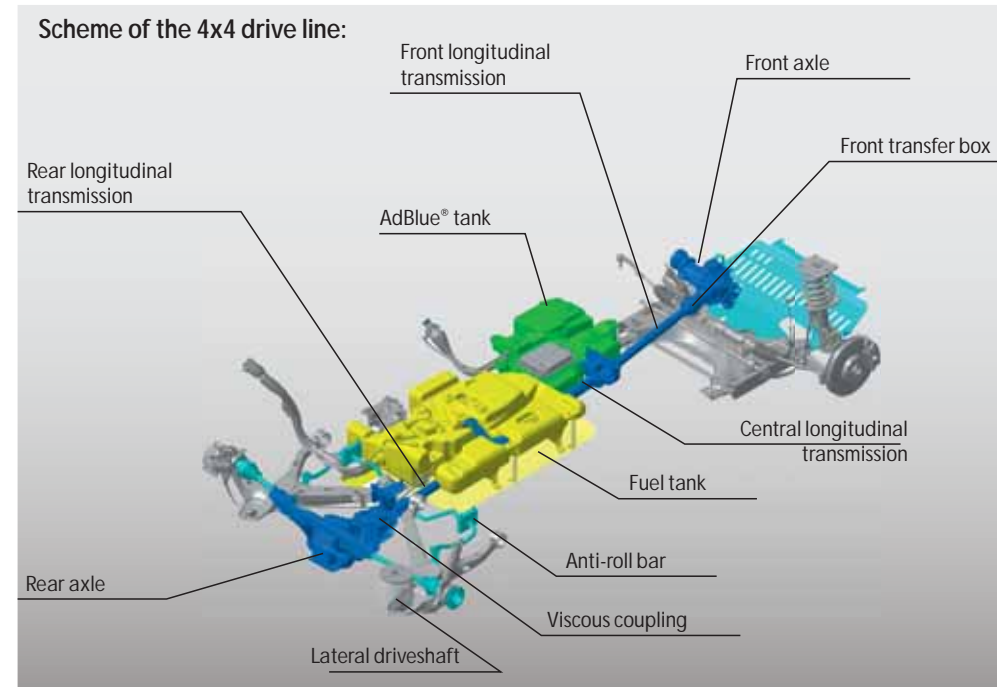

- 4x4 on demand (mode selector ON/OFF)
- Increased ground clearance
- Low CO₂ emissions and fuel consumption
- Comfort (springs and suspensions)
- Automobiles Dangel is a 4x4 specialist for 40 years
- Adaptability/rough terrain options available
- Protections (under engine, gearbox)

- 2 years warranty (unlimited mileage)
- Service intervals as per base vehicle (including transfer box and rear axle)

OPEL CERTIFIED CONVERSIONS

Key advantages for customer:

- Opel Engineering technical check on product
- Minimum 2 years warranty
- Liability insurance for all damages caused by a defect of the conversion
- 12 years conversion spare part availability
